

Natural Walls

Our Natural Walls are made using a variety of preserved materials from the natural world. Only natural products that are harvested sustainably are selected. Our Natural Walls require no light, water or maintenance to retain their natural beauty.

BIOMONTAGE®

Biophilic Design

- Addresses the human need to be in touch with the natural world.
- Incorporates natural elements into the built environment.
- BioMontage® is a biophilic design product that requires no light, maintenance or water.

NATURAL MATERIALS

Lime Green Reindeer Moss

Medium Green Reindeer Moss

Forest Green Reindeer Moss

Vivid Green Pole Moss

Deep Green Long Moss

BIOMONTAGE®

Our Reindeer Moss grows abundantly in vast Scandinavian forests and is harvested by hand in a way that ensures perfect renewal of the plant. The moss is preserved naturally and is 100% biodegradable and is also fire retardant. Reindeer moss is a very efficient acoustic modulator, making it a perfect biophilic design element in public places and offices.

Our Light Stone panels are made from a combination of natural stone and resin, which is lighter and more manageable than raw stone. These naturally attractive panels come in two finishes which complement any interior: Prairie Brown and Mountain Grey.

Our sustainable Yellow Poplar tree bark comes from the Appalachian Hardwood Region of the U.S. The poplar wood is used for furniture production but the bark has limited practical uses. BioMontage® helps prevent the bark from becoming waste. Our bark also has excellent acoustic properties.

Harvested sustainably by hand in the forests of France, and preserved naturally, our Vivid Green Pole Moss presents a three dimensional, natural texture in a distinctive, long lasting color.

When the Coconut tree can no longer produce its famous fruit, the tree is harvested and used in building construction and furniture production. The "Coco Bark," has very few uses and is often discarded. We hand-craft the small pieces into beautiful natural panels that fit perfectly into our BioMontage® system.

Harvested in a natural, sustainable way in the forests of Turkey and preserved naturally, Long Moss is an elegant, cost-competitive alternative to Flat Moss. Long Moss holds its deep green color very effectively in virtually any interior environment.

The Mangium Tree is used primarily in furniture production. Branches are periodically cut from the tree and could easily become waste. We slice and trim the branches into small tiles, then combine the tiles to create a stunning natural mosaic which is an exciting new addition to the BioMontage® range.

Prairie Brown Light Stone

Mountain Grey Light Stone

Sustainable Poplar Bark

Upcycled Coconut Tree Bark

Upcycled Mangium Tree Branches

FLAMMABILITY TEST RESULTS

USA

Moss Panels

ASTM E84, Class A

3 Frame Sizes

12" x 24"
(30,5 x 61 cm)

24" x 24"
(61 x 61 cm)

48" x 24"
(122 x 61 cm)

3 Frame Colors

Solid Shine Black
(SSBL)

Solid Shine White
(SSWH)

Solid Shine Anthracite
(SSAN)

Easy to install and easy to change

- Attach back frame to wall

- Insert Panel

- Attach Safety Clips

- Snap on Front Frame

For details on installation, please refer to the BioMontage® Installation Guide.

Choose any of these natural finishes and dimensions for your room divider

One-sided or two sided

Frame dimensions on both sides need to match in case two-sided BioMontage® Room Divider is being used

Room Divider

Various options possible

BioMontage® Room Dividers can easily be connected to divide spaces permanently or just temporarily.

Optional Base Cover

BioMontage® Room Dividers are on wheels or on leg levelers if these are required.
